# City of Bonney Lake to take on new role in Recreation Program Effective September 1, 2017

Effective Sept. 1, 2017, the City of Bonney Lake will take the lead in administering the joint Recreation Program, a previous responsibility of the Sumner School District. The City will continue its interlocal agreement with the Sumner School District in offering recreation and arts activities for youth and adults in the community, as well as before and after school activity programs for students in the district. Those who participate in the programs and activities will continue to enjoy the same variety of quality and affordable offerings.

Bonney Lake is a growing city and the Recreation Program will play an integral part in providing activities for area youth and adults. We look forward to leading the program and the continued partnership with the Sumner School District.
