II. **PUBLIC HEARINGS, CITIZEN COMMENTS & CORRESPONDENCE:**

A. Public Hearings: None.

B. Citizen Comments:

James Kelly McClimans, Sr, 19025 68th St E, Bonney Lake, congratulated the City on the great Easter Egg Hunt event on March 30th. He spoke about the proposed Metropolitan Parks District (MPD) on the April ballot. He said he has spent a lot of time and energy on this issue, and is opposed to the MPD. He said he does not want the City to take any more tax dollars or property from citizens. He said in 2004, the City seized the ‘Moriarty Property’ for a parks addition. He said it is wrong for the City to take property, and asked if the City had paid off the $5 million bill for this acquisition. He said it is difficult to find information to answer his questions. He asked the Council to consider taking action to suspend the taking of property for park purposes. He said the pro-MPD side has accused his group of being paranoid for suggesting that the MPD could use eminent domain. He said the Moriarty Property seizure shows a history of this happening.

Mayor Johnson asked Mr. McClimans to provide any questions he has to the City Clerk.

Shawnta Mulligan, 11329 177th Ave E, Bonney Lake, said the Council’s decisions to take the Moriarty Property were costly to citizens and have not benefited the people of Bonney Lake. She said the Justice & Municipal Center is another example, as the City
took out a $10 million bond which has not benefited people. She said the Council is willing to take out bonds without public input, but goes to a special election for parks issues or a recreation center. She said she believes the City’s priority on building trails is not in line with what people in the community want most – ballfields. She noted that a new MPD would still need to take out bonds to complete big-ticket projects. Ms. Mulligan also questioned whether the Council should serve as the initial MPD board. She said it could cause a conflict if someone had a complaint about eminent domain being used for parks, and their councilmember representative is also a MPD board member. She said when the MPD fails, she hopes the Council will look for alternative ways to fund City parks.

Teresa McClimans, Bonney Lake, asked to cede her time to Kelly McClimans. The Mayor and City Attorney discussed the Council rules regarding citizen comment periods and time allowances. The City Attorney noted that someone representing a group as the sole speaker can speak for up to 10 minutes, and the assumption in this case is that both Mr. McClimans and Ms. Mulligan, who are on the MPD ‘Con’ Committee, represent their group. Mayor Johnson said other attendees could not give their time to another speaker to provide them more time to speak beyond the 5 minutes for individuals or 10 minutes for a group.

Dave Hobley, 11204 193rd Av E, Bonney Lake, read aloud a portion of the Revised Code of Washington (RCW) about people holding more than one commission or council position and the receipt of per diem pay. He said the Council could pass a resolution allowing them to receive per diem pay as both a councilmember and as a park commissioner. He urged the Council to make a motion prohibiting Councilmembers from receiving per diem payments for both positions. He said the Council should not be paid twice for the same job.

Councilmember Rackley said the Council has not raised its salary for many years. Mr. Hobley said the Council should prohibit this possibility, otherwise it would be a breach of trust with citizens. He said he believes this is the main reason the MPD came forward.

Dan Decker, 20407 70th St E, Bonney Lake, spoke against the installation of more traffic lights on SR410, which would cause traffic jams. He also spoke about the Moriarty Property. He said he spoke to the Council years ago when this property was available for $800,000 but the Council and Mayor at the time did not take action. He said eventually, the City took the property from the Schuur Brothers which cost the City $5 million. He asked the City Clerk to provide him with public records showing whether this debt had been paid off. He also spoke against the proposed MPD, and said it would hurt people who cannot afford it.

Fred Jacobsen, 9100 189th Ave Ct E, Bonney Lake, said Councilmembers receive a $400 per month salary for all the work they do and time they spend. He said he wanted to put this fact on the record due to the statements by other speakers.

Shawn Hoey, Master Builders Association of Pierce County, spoke on behalf of the Master Builders Association of Pierce County. He said the MBA supports proposed Ordinances D12-149 (landscaping code) and D13-50 (Traffic Impact Fees). He said the MBA also appreciates the Council’s work to pass temporary fee reduction ordinances. Councilmember Rackley thanked him for his positive comments.
Jim Bouchard, 20303 108th St Ct E, Bonney Lake, is the current Park Board Chair and thanked the Council for filling the Park Board appointments. He said the Board reviewed proposed Ordinance D13-31 for boat launch fees, and asked that this item be pulled from the Consent Agenda for discussion. He noted that the ordinance does not include language about fees for lost resident cards. Further, he said the Park Board feels the $200 fee for a non-residents card is exorbitant.

Mr. Bouchard thanked Public Works Director Grigsby for speaking to the Board about work to improve parking and traffic flow at the boat launch and Allan Yorke Park. Mr. Bouchard invited all to attend the groundbreaking ceremony on April 13th for the Fennel Creek Trail “Safe Routes” project. He said the Park Board has urged the City to use its electronic reader board to remind citizens to vote in the April elections. Finally, he referred to the gnome ‘sightings’ at City parks and suggested the City set up a geocaching project around City parks as a community activity.

City Attorney Haggard said she had reviewed the proposed boat launch fee ordinance and recommended it be pulled from the agenda as the language regarding fees for lost cards needed to be revised.

C. Correspondence:

Mayor Johnson said he received letters from the State Auditor recognizing Accountant Terrina Marchant and Accounting Specialist Mona Musgrave for their work on the audit. He thanked staff for doing a great job.

A. Finance Committee: Deputy Mayor Swatman said the committee met at 5:30 p.m. earlier in the evening. They discussed personnel updates and hiring of a new Senior Accountant. He noted that in the Council Retreat, a decision was made to funnel more routine project items to the Finance Committee rather than sending them to the CDC. VII. **PUBLIC SAFETY COMMITTEE ISSUES:** None.
VIII. FULL COUNCIL ISSUES:

Councilmember Watson moved to approve Resolution 2286. Councilmember Rackley seconded the motion.

Councilmember Watson said he not comfortable moving this project to the top of the priority list. He asked whether the City had considered adding a walking route on Sumner-Buckley Hwy / Veterans Memorial Hwy from 192nd St E to downtown. Mayor Johnson said the Council can re-prioritize projects based on its goals and objectives. He added that the route on Sumner-Buckley Hwy may be more difficult as right-of-way would need to be acquired to add sidewalks. Councilmember McKibbin suggested the Public Safety Committee discuss walking routes from Midtown to Downtown.

Public Works Director Grigsby explained that the City has received a $450,000 grant from the Transportation Improvement Board, which requires a matching amount from the City. He said it is good to use this type of grant funding when it is available. He noted that the City's non-motorized transportation plan includes priorities for sidewalks such as this. Deputy Mayor Swatman said the City will not receive the grant funds unless they're used for this project and it is a good opportunity. He said he understands other councilmembers’ concerns about moving other projects lower on the priority list, but now is a good time to get this project started.

Councilmember Watson said he had questions for staff on expenses related to the Justice & Municipal Center and repair costs. He also asked why the City is paying homeowner’s association dues to the Victor Falls HOA. Mayor Johnson said staff are working with the original builder of the JMC building on remedies for some of the issues. Director Grigsby explained that the City owns property in the Victor Falls HOA, and the dues are used to maintain a gravel road to access the City’s and other properties close to the Victor Falls Springs water source. He said the City pays its share, which is one tenth of the total maintenance costs, and he personally attends the regular HOA meetings.
