

# TRANSPORTATION BROKERS

Washington State Health Care Authority (HCA) may provide transportation services to currently enrolled Medicaid families. These appointments must be for allowable, non-emergency healthcare. HCA partners with transportation brokers throughout the State who contract with drivers to provide the service.

Below is a list of the non-emergency medical transportation (NEMT) brokers. If you are hosting a Car Seat Awareness Class funded by the WA Child Passenger Safety grant program, you must share class information to your appropriate transportation broker.
