

This list of Backflow Assembly Testers (BAT) was compiled by the City of Bonney Lake as a convenience for our customers. Inclusion on this list was entirely voluntary; the list is solely intended to be a consolidated list of BAT's who have declared that they provide cross connection/backflow preventer related services. The City of Bonney Lake has verified that BAT's on this list are licensed to perform these services. The City of Bonney Lake does not endorse or recommend any company on this list. The City of Bonney Lake does not set pricing by these companies. The City of Bonney Lake suggests that customers obtain several estimates before hiring a BAT to test your backflow preventer or provide any other plumbing services. BAT's wishing to be added to, or removed from this list must contact the City of Bonney Lake's Cross Connection Control Specialist. This list does not represent all licensed plumbing firms; customers may use any licensed BAT.
